

We all know that Jules Vern did a trip around the world in 80 days. But did you know that this coming weekend, Founder, Michael Gilmour; and Head of Operations, Laci Nagy; will be boarding a plane for a trip around the world in just 14 days? So eat your heart out Jules!

The trip will be providing opportunity to catch up with many of our clients and partners throughout the world with several stops in Europe, Canada and the United States.

As part of the trip, they are heading off to DOMAINfest in Barcelona, where for the first time Parklogic is sponsoring a domain conference and also having a booth. Up until now Parklogic has been exclusively a closed community. In having this booth we are now giving the wider professional domaining community the opportunity to become members. Our exclusivity will still remain however, as we continue to maintain the strict high standard of client criteria that Parklogic is reknown for. So by all means, if you are attending make sure that you stop by Booth #102 and have a chat to see what Parklogic can do for you.

The other exciting news that will be shared on this trip is a soft launch of two brand new products for Parklogic that will be released soon. Both of these developments are going to be tremendous enhancements for our clients; giving them the ability to not only get more for their money, but also save money. So, look forward to these announcements and more information

regarding this fantastic news.
